

Second Quarter Report 2021

Management Discussion and

1. Introduction

Management's discussion and analysis report outlines the financial results of VIA Rail Canada Inc. (The Corporation) for the quarter and the six-month period ended June 30, 2021 compared with the quarter and the six-month period ended June 30, 2020. This document should be read in conjunction with the interim condensed financial statements and notes.

Materiality

In assessing what information is to be provided in this report, management applies the materiality principle as guidance for disclosure. Management considers information material if it is probable that its omission or misstatement, judged in the surrounding circumstances, would influence decisions that the Corporation's stakeholders make on the basis of the financial information.

Forward-Looking Statement Disclosure

This Management's discussion and analysis report contains forward-looking statements which may be identified with the words "may", "likely to", "could". These statements reflect our evaluation of the information currently available and are subject to a number of risks and uncertainties referred to in the risk section of this document.

2. Corporate Overview

VIA Rail is a non-agent Crown corporation which operates Canada's national passenger rail service on behalf of the Government of Canada. The Corporation's objectives are to manage and provide a safe, efficient, reliable, and environmentally sustainable passenger rail service that meets the needs of travellers in Canada.

The Government of Canada determines the Corporation's role within the overall structure and services provided by the Federal government and provides appropriations to subsidize passenger rail services.

3. COVID-19 Pandemic

The Corporation, as well as all other passenger transportation providers, remains significantly affected by the COVID-19 pandemic. The Corporation's levels of operations are still below pre-pandemic levels but are higher as compared to those of the corresponding quarter in 2020. Capacity has increased by more than 87 per cent in terms of train-miles, and by 150 per cent in terms of seat-miles.

Safety of passengers and employees remains the Corporation's key priority as services resume and new health and safety measures were implemented to address health & safety requirements. These measures include physical distancing in stations, health screening procedures for passengers boarding trains and the requirement for passengers and staff who interact with customers to wear protective face covering. Sanitizing products are distributed to passengers in key contact points and additional cleaning protocols have also been put in place on board trains, in stations, maintenance centers and offices. The Corporation continues to monitor safety requirements in all provinces in which trains operate to ensure they are all respected.

Financial Highlights - Second Quarter

- Total revenues increased by 177.2 per cent resulting from an increase in frequencies led by higher demand.
- Operating expenses decreased by 5.7 per cent primarily due to lower compensation costs, reflecting the service adjustments and employee layoffs made since the second half of 2020.
- The operating loss decreased by 13.2 per cent due to an increase in revenues combined with a decrease in operating expenses.
- Operating funding decreased by 18.6 per cent, reflecting the lower amounts required for funded activities.
- The Corporation generated a comprehensive income of \$48.7 million compared to a comprehensive loss of (\$129.1) million in 2020. The variation is due to the remeasurements of the defined benefit components of the pension plans and post-employment benefit plans.

Six-month period

- Total revenues decreased by 50.1 per cent also due to lower demand and reduced service levels in all train services caused by the impact of COVID-19.
- Operating expenses decreased by 22.2 per cent, reflecting the decrease in capacity deployed since the end of the first quarter of 2020 and cost containment measures such as the layoff of employees and postponement of nonessential initiatives.
- The operating loss decreased by 16.8 per cent as the decrease in operating expenses was greater than the decrease in revenues.

- Operating funding decreased by 13.8 per cent, reflecting the lower amounts required for funded activities.
- The Corporation generated a comprehensive income of \$257.3 million compared to a comprehensive loss of (\$75.6) million in 2020. The variation is due to the remeasurements of the defined benefit components of the pension plans and post-employment benefit plans.

Most of the key operating statistics were positively impacted during the second quarter due to the increase in frequencies. On a cumulative basis, most of the key operating statistics were negatively impacted by the pandemic. On-time performance increased during the quarter and on a cumulative basis as a result of reduced Corporation operating levels which generated less congestion on the host rail network.

(Amounts in bracket represent decreases)

Net income under IFRS for the quarter:

Net income of \$4.6 million this quarter, compared to a net income of \$4.5 million last year, representing an improvement of \$0.1 million mainly due to:

- Lower operating loss (\$18.3 million), attributable to higher revenues of \$10.1 million combined with lower operating expenses of \$8.2 million.
- Higher amortization of deferred capital funding (\$4.1 million).
- Partly offset by lower government funding received during the quarter (\$22.3 million).

Net income (loss) under IFRS for the six-month period:

Net income of \$2.4 million for the six-month period, compared to a net loss of \$19.1 million last year, representing an improvement of \$21.5 million mainly due to:

- Lower operating loss (\$48.9 million), attributable to lower expenses of \$77.3 million partly offset by lower revenues of \$28.4 million.
- Higher amortization of deferred capital funding (\$3.5 million).
- Partly offset by lower government funding received during the six-month period (\$30.9 million).

Comprehensive income (loss)

Remeasurement of defined benefit component of the pension plans and post-employment benefit plans is composed of quarterly non-cash remeasurements resulting from changes in actuarial assumptions and the return on pension plan assets.

Comprehensive income of \$48.7 million in the second quarter of 2021 and comprehensive income of \$257.3 million for the six-month period ended June 30, 2021 include the following:

Remeasurement of the defined benefit component of the pension plans and post-employment benefit plans of \$44.1 million in the second quarter of 2021 is due to an actuarial loss of \$68.7 million on the defined benefit obligation arising from a 20-basis-point decrease in the discount rate since March 31, 2021, and to a remeasurement gain of \$113.3 million resulting from higher actual rate of return on plan assets. The remeasurement also includes an actuarial loss of \$0.5 million due to the decrease in the discount rate used to determine the post-employment benefit obligation.

The remeasurement of the defined benefit component of the pension plans and post-employment benefit plans of (\$254.9) million for the six-month period is due to the increase in the discount rate used to determine the defined benefit obligation (3.10 per cent as at June 30, 2021 compared to 2.50 per cent as at December 31, 2020), which resulted in an actuarial gain of \$223.6 million, combined with a return on plan assets of \$28.7 million during the period. The remeasurement also includes an actuarial gain of \$2.6 million due to the increase in the discount rate used to determine the post-employment benefit obligation (3.20 per cent as at June 30, 2021 compared to 2.60 per cent as at December 31, 2020).

Comprehensive loss of \$129.1 million in the second quarter of 2020 and comprehensive loss of \$75.6 million for the six-month period ended June 30, 2020 include the following:

Remeasurement of the defined benefit component of the pension plans and post-employment benefit plans of (\$133.6) million in the second quarter of 2020 is due to an actuarial loss of \$330.3 million on the defined benefit obligation arising from a 100-basis-point decrease in the discount rate since March 31, 2020, and to a remeasurement gain of \$200.9 million resulting from higher actual rate of return on plan assets. The remeasurement also includes an actuarial loss of \$4.2 million due to the decrease in the discount rate used to determine the post-employment obligation.

The remeasurement of the defined benefit component of the pension plans and post-employment benefit plans of (\$56.5) million for the six-month period is due to the decrease in the discount rate used to determine the defined benefit obligation (2.80 per cent as at June 30, 2020 compared to 3.10 per cent as at December 31, 2019), which resulted in an actuarial loss of \$107.1 million, partly offset by a return on plan assets of \$52.0 million during the period. The remeasurement also includes an actuarial loss of \$1.4 million due to the decrease in the discount rate used to determine the post-employment benefit obligation (2.80 per cent as at June 30, 2020 compared to 3.10 per cent as at December 31, 2019).

Passenger revenues

Passenger revenues have increased by \$9.6 million (417.4 per cent) during the quarter and have decreased by \$27.7 million (57.2 per cent) for the six-month period. The increase during the quarter is associated to the additional capacity as compared to last year. The decrease for the six-month period is mainly attributable to the adjustments made to service levels for most train services in March 2020 as a result of the pandemic and the significant decrease in demand.

The COVID-19 outbreak was declared a pandemic on March 11, 2020 by the World Health Organization and has ever since significantly impacted the Corporation's operations which have been reduced. Frequencies were cancelled in most major train services and fully interrupted on others such as the Ocean and the Canadian.

Québec City - Windsor corridor

Revenues have increased by \$10.1 million (1,122.2 per cent) during the quarter as a result of increased frequencies which drew higher passenger levels (193.7 per cent), as well as improved average revenues (287 per cent). Capacity (in terms of seat-miles offered) increased by 150 per cent compared to the corresponding quarter last year. On a cumulative basis, revenues have decreased by \$21.4 million (53.5 per cent).

Ocean

No revenues were generated during the second quarter on this service as it ceased operating in March 2020 and has not resumed yet due to travel restrictions implemented by some Atlantic provinces.

For the six-month period, revenues have consequently decreased by \$1.1 million (100.0 per cent).

Canadian

The service was shut down in March 2020 because of the COVID-19 pandemic and did not operate during the second quarter last year. The Winnipeg-Vancouver portion of the service was reintroduced in December 2020 and has operated at one weekly round-trip during the quarter. The Toronto-Winnipeg segment was reintroduced on May 17, 2021.

Revenues for the quarter are consequently \$0.4 million higher than last year.

On a cumulative basis, they have decreased by \$2.5 million (80.6 per cent) as a result of lower ridership (42.1 per cent).

Regional services

Capacity was reduced by 14 per cent compared to the second quarter of 2020.

Revenues have increased by \$0.1 million (50.0 per cent) for the quarter as a result of higher passenger levels and improved average revenues.

They have decreased by \$0.2 million (33.3 per cent) for the six-month period, mainly because of the reduced frequencies.

Other revenues

Other revenues have increased by \$0.5 million (14.7 per cent) for the quarter and have decreased by \$0.7 million (8.4 per cent) for the six-month period. The increase for the second quarter is attributable to higher third-party revenues generated mainly with maintenance contracts. The decrease for the six-month period is due to lower station parking and concession revenues, resulting from the decrease in ridership.

(Explanations are provided for expenses for which quarterly variances are of \$3 million or more, or 10 per cent or more)

The Corporation, in its objective to reduce costs and minimize the impact of the pandemic on its revenues and deficit, continues to enforce various cost-saving measures including:

- The reduction of its operating expenses in proportion to the level of operations,
- Employee layoffs and reduction of compensation for some employees not working,
- Reduction of publicity and advertising activities,
- Reduction of services in stations, as well as
- o Reduction of administrative costs and the postponement of nonessential initiatives.

The Corporation's cost structure includes a substantial portion of fixed costs which cannot easily be reduced on a short-term basis, the Corporation is therefore constantly looking for different ways to maintain fixed costs at the lowest level possible.

Total operating expenses decreased by \$8.2 million (5.7 per cent) for the quarter, and by \$77.3 million (22.2 per cent) for the six-month period. The primary variances are:

Compensation and employee benefits

The expenses decreased by \$15.6 million (21.0 per cent) during the quarter and by \$36.1 million (22.8 per cent) for the six-month period. The decreases stem mainly from the employee layoffs made during the second half of 2020 following the reductions in frequencies as a consequence of the COVID-19 pandemic.

Train operations and fuel

The expenses increased by \$6.2 million (56.9 per cent) during the quarter due to the increase in frequencies. On a cumulative basis, expenses have decreased by \$4.9 million (12.7 per cent) as a result of the reduced level of operations compared to the same period last year, also as a consequence of the COVID-19 pandemic.

Marketing and sales

The expenses increased by \$1.1 million (57.9 per cent) during the quarter and decreased by \$5.1 million (52.0 per cent) for the six-month period.

The increase for the quarter is mainly attributable to advertising campaigns to inform passengers of the reintroduction of frequencies in the corridor. On a cumulative basis, however, advertising costs remain below those of 2020 when normal advertising campaigns were made during the first quarter prior to the pandemic.

Maintenance material

The expenses have decreased by \$0.9 million (12.9 per cent) for the quarter, and by \$5.3 million (30.8 per cent) for the six-month period. The decrease reflects the lower utilization of equipment associated with the reduced level of service.

Professional services

The expenses increased by \$0.5 million (17.9 per cent) during the quarter and decreased by \$0.8 million (14.0 per cent) for the six-month period. The increase for the quarter reflects the higher level of activity compared to the corresponding quarter last year. The decrease in costs for the six-month period results from the delay or cancellation of various initiatives nonessential to operations.

Loss on disposal of property, plant and equipment and intangible assets

The expenses increased by \$2.3 million (575.0 per cent) during the quarter and have increased by \$2.7 million (675.0 per cent) for the six-month period.

The increases for the quarter and the six-month period are mostly due to the retirement of end of life rolling stock.

Unrealized (net gain) net loss on derivative financial instruments

Net gain of \$2.7 million for the quarter and net gain of \$6.1 million for the six-month period compared to a net gain of \$3.7 million for the quarter ended June 30, 2020 and a net loss of \$9.9 million for the six-month period. Net gain for the cumulative period ending June 30, 2021 reflects the fact that market fuel prices are higher than contract prices. Last year, losses were generated on a cumulative basis, as the market prices were lower than the contract prices.

(Amounts in bracket represent decreases)

The main changes in the Statement of Financial Position result from the following major elements:

Assets

Total assets have increased by \$272.8 million due mainly to an increase in employee benefit assets by \$195.7 million because of the increase in the discount rate as well as to acquisitions of property, plant and equipment.

Liabilities and deferred capital funding

Total liabilities have decreased by \$28.5 million mainly due to a decrease in employee benefit liabilities by \$54.2 million because of the increase in discount rates. Deferred capital funding has increased by \$44.0 million due to capital investments.

Comprehensive income (loss)

Other comprehensive income increased due to the increase in discount rates affecting employee benefit assets and liabilities, as explained in section 5.1 of this document.

Operating activities

Net cash increased by \$27.7 million (589.4 per cent) for the quarter and by \$51.5 million (1,095.7 per cent) for the six-month period. The increases are mainly due to the variance in working capital items (\$18.2 million for the quarter and \$43.5 million for the six-month period) as shown in Note 18 of the interim condensed financial statements.

Investing activities

Net cash decreased by \$32.6 million for the quarter and by \$65.7 million for the six-month period. These decreases are mainly due to the amount of government funding received during the quarter and the six-month period which was lower than the amount of acquisition of property, plant and equipment and intangible assets.

5.5 Liquidity, Cash Flows and Capital Investments (cont'd)

Funded capital investments

Property, plant and equipment and intangible assets totalled to \$1,560.8 million as at June 30, 2021, which is an increase of \$47.9 million compared to the balance as at December 31, 2020.

Funded capital investments of \$95.1 million were invested during the six-month period.

(Amounts in bracket represent decreases)

The most significant investments made during the quarter and the six-month period were in equipment projects such as the Fleet Replacement Program and the HEP (head-end power) long haul and corridor equipment rebuild program, the High Frequency Rail project (HFR) as well as investments in Information Technology projects such as the new reservation system.

6. Results compared to the 2020-2024 Corporate Plan (1)

(1): The Corporate plan provides information on funded activities, therefore comparison between actual and planned results are based on funded activities.

The Corporation continues to work towards achieving the goals and strategies identified in its corporate plan. The financial results of the quarter, however, differ from the planned results because of the impacts of the COVID-19 pandemic, which include a sharp decrease in travel demand and the associated reduction in capacity.

In terms of capital expenditures, work progresses on the major strategic projects identified in the plan such as the Fleet Replacement Program, rolling equipment modernization, station upgrades and new reservation system.

7. Risk Analysis

This section highlights the Corporation's key risks which may have potential impact on the Corporation's financial results and provides information on risks for which the trend or status has changed compared to the status as at December 31, 2020.

As at June 30, 2021, there are no risks for which the trend or status has changed since December 31, 2020.

8. Outlook

The results of the second quarter have again been significantly impacted by the COVID-19 pandemic but have improved compared to the previous quarters as passenger demand increases and frequencies are reintroduced.

There remains uncertainty with regard to the evolution of the pandemic and the emergence of a fourth wave and new contagious variants of the virus. Management therefore ensures that the reintroduction of frequencies is in line with passenger demand so that incremental costs associated to the increased services are limited. The reintroduction of frequencies in non-corridor services which do not all cover their costs will, however, increase the Corporation's deficit and could result in a funding shortfall for the government fiscal year. Management is closely monitoring the situation and is in communication with Transport Canada concerning potential additional funding requirements during this unprecedented and sustaining situation.

In the meantime, work continues on the implementation of initiatives to minimize operating costs with measures such as temporarily layoffs of a portion of its workforce and the cancelling/delay of nonessential operational initiatives. Major strategic projects such as the Fleet Replacement Program, Heritage Program, High Frequency Rail (HFR) and the new reservation system are maintained as they are key to the Corporation's transformation.

Management's Responsibility Statement

Montréal, Canada August 25, 2021

Quarter ended June 30, 2021

Management of the Corporation is responsible for the preparation and fair presentation of these quarterly financial statements in accordance with The Treasury Board of Canada's Directive on Accounting Standards: GC 5200 Crown Corporation Quarterly Financial Reports, and for such internal controls as management determines are necessary to enable the presentation of quarterly financial statements that are free from material misstatements.

Management is also responsible for ensuring all other information in this quarterly financial report is consistent, where appropriate, with the quarterly financial statements.

Based on our knowledge, these unaudited quarterly financial statements present fairly, in all material respects, the financial position, results of operations and cash flows of the Corporation, as at the date of and for the periods presented in the quarterly financial statements.

1. Authority, Objectives and General Information

VIA Rail Canada Inc. is a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

The Corporation was incorporated in 1977 in Canada, under the Canada Business Corporations Act. The corporate headquarters is located at 3 Place Ville-Marie, Montréal (Québec). The Corporation's vision is to be a smarter way to move people with a mission to place passengers at the core of everything we do and strive to offer a safe, smart and valued travel experience across Canada. The Corporation uses the roadway infrastructure of other railway companies and relies on them to control train operations.

The Corporation is subject to a directive (P.C. 2013-1354) that was issued on December 9, 2013, and a related subsequent directive (P.C. 2016-443) that was issued on June 3, 2016, pursuant to sections 89.8 and 89.9 of the *Financial Administration Act*. As per these directives, the Corporation must obtain Treasury Board approval on the terms and conditions of employment of its non-unionized employees who are not appointed by Governor in Council. The Corporation confirms that the requirements of these directives have been met.

In July 2015, the Corporation was issued a directive (P.C. 2015–1114) pursuant to section 89(1) of the *Financial Administration Act* to align its travel, hospitality, conference and event expenditure policies, guidelines and practices with Treasury Board policies, directives and related instruments on travel, hospitality, conference and event expenditures in a manner that is consistent with its legal obligations, and to report on the implementation of this directive in the Corporation's next corporate plan. The Corporation confirms that the requirements of the directive have been met.

The Corporation is not an agent of Her Majesty and is subject to income taxes.

The Corporation has one operating segment, passenger transportation and related services in Canada. The Corporation's activities are considered seasonal since passenger traffic increases significantly during the summer and holiday periods resulting in an increase in revenue for these same periods.

These interim condensed financial statements were approved and authorized for issue by the Board of Directors on August 25, 2021.

On March 11, 2020, the World Health Organization characterized the outbreak of a strain of the novel coronavirus ("COVID-19") as a pandemic which has resulted in a series of public health and emergency measures that have been put in place to combat the spread of the virus. On March 12, 2020, in response to the COVID-19 outbreak, the Corporation enforced special health and safety measures for its passengers and employees, and subsequently reduced service levels for most major train services. During the year, the Corporation faced a severe and abrupt drop in services and a corresponding decline in revenue as a result of the COVID-19 pandemic. The impact of the COVID-19 pandemic began to be felt at the end of the first quarter. These impacts include drastic increase in operating loss and substantial decline in cash from operations, increasing the necessity to obtain funding from the Government of Canada. With a limited visibility on travel demand, the Corporation cannot predict the full impact of the pandemic and is actively monitoring the situation.

The Corporation, in its objective to reduce costs and minimize the impact of the pandemic on its deficit, has implemented various cost saving measures including:

- The reduction of a portion of its operating expenses in proportion to the level of operations,
- Employee layoffs and reduction of compensation for some employees not working,
- Reduction of publicity and advertising activities,
- Reduction of services in stations, as well as
- Reduction of administrative costs and the postponement of non-essential initiatives.

The Corporation will receive the additional funding from the Government of Canada and has adequate resources to continue in operational existence for the foreseeable future. Thus, the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

2. Basis of Preparation

a) Statement of compliance

These interim condensed financial statements have been prepared in accordance with Section 131.1 of the *Financial Administration Act* and International Accounting Standards IAS 34 – *Interim Financial Reporting* as issued by the International Accounting Standards Board (IASB) and approved by the Accounting Standards Board of Canada.

Section 131.1 of the Financial Administration Act requires that most parent Crown corporations prepare and make public quarterly financial reports in compliance with The Treasury Board of Canada's Directive on Accounting Standards: GC 5200 Crown Corporations Quarterly Financial Reports.

These interim condensed financial statements have not been audited and should be read in conjunction with the annual financial statements for the year ended December 31, 2020, which have been prepared in accordance with the IFRS.

b) Functional and presentation currency

These interim condensed financial statements are presented in Canadian dollars, which is the Corporation's functional currency. All financial information presented in Canadian dollars has been rounded to the nearest thousand in the interim condensed financial statements and rounded to the nearest million in the notes to the interim condensed financial statements.

3. Summary of Significant Accounting Policies

The significant accounting policies applied for these condensed interim financial statements are presented in Note 4 of the Corporation's annual financial statements for the year ended December 31, 2020.

4. Key Sources of Estimation Uncertainty and Critical Judgments

In the application of the Corporation's accounting policies, management is required to make certain assumptions, estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent liabilities, at the reporting date.

Assumptions and estimates are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

They are reviewed on an ongoing basis. Changes to accounting estimates are recognized in the period in which the estimate is revised and in any future period affected. However, uncertainties relating to assumptions, estimates and judgments could result in outcomes that would require a material adjustment to the carrying amount of the asset or liability affected in future years. Key sources of estimation uncertainty and critical judgments are disclosed in Note 5 of the Corporation's annual financial statements for the year ended December 31, 2020.

5. Revenues

The following table disaggregates the revenue by major sources:

	Qu	arters ended June 30	Six-month periods ended June 30

Total revenues	15.8	5.7	28.3	56.7	

Note 1: includes sales commissions and baggage revenues.

6. Reconciliation of Operating Loss to Government Funding

The Corporation receives its funding from the Government of Canada based primarily on cash flow requirements. Items recognized in the Statement of Comprehensive Income in the period may be funded by the Government of Canada in different periods. Accordingly, the Corporation has different net results of operations for the period on a government funding basis than on an IFRS basis. These differences are outlined below:

	Qu	arters ended June 30	Six-month periods ended June 30		
(in millions of Canadian dollars)	2021	2020	2021	2020	
Operating loss before funding from the Government of Canada and income taxes	120.7	139.1	241.9	290.8	
Items requiring operating funds:

7. Trade and Other Receivables

The trade and other receivables balance includes the following:

(in millions of Canadian dollars)	June 30, 2021	December 31, 2020
Trade	1.9	1.8
Other receivables	4.6	9.5
Loss allowance	(0.4)	(0.3)
Trade and other receivables classified at Amortized cost	6.1	11.0
Amount receivable from the Government of Canada – Operating funding (Note 8)	17.3	47.0
Amount receivable from (payable to) the Government of Canada – Capital funding (Notes 8 and 18)	10.3	(36.5)
Total receivable from the Government of Canada	27.6	10.5
Sales taxes	5.5	7.6
Total trade and other receivables	39.2	29.1

All trade and other receivables amounts have short-term maturities. Their net book values correspond to a reasonable approximation of their fair value.

The net book value of the past due receivables of the Corporation is \$0.7 million (December 31, 2020: \$1.1 million) at the closing date. The maturity of these receivables is detailed in the following table:

(in millions of Canadian dollars)	June 30, 2021	December 31, 2020
Not impaired and past due by:		
0 to 30 days	0.5	0.9
31 to 60 days	0.1	0.2
61 to 90 days	0.1	-
Over 90 days	-	-
Total	0.7	1.1

The Corporation has recognized in the current period an amount of \$0.1 million of impairment loss arising from contracts with customers and other receivables, which is presented in the line "Other" in the Statement of Comprehensive Income (June 30, 2020: \$0.7 million).

8. Government Funding Receivable from (Payable to) the Government of Canada

Government funding relating to operating expenses:

(in millions of Canadian dollars)	June 30, 2021	December 31, 2020
Balance, beginning of period	47.0	36.1
Government funding received to fund operating expenses	(223.2)	(404.9)
Government funding recognized in financial results	193.5	415.8
Balance, end of period	17.3	47.0

Government funding relating to capital expenditures:

(in millions of Canadian dollars)	June 30, 2021	December 31, 2020
Balance, beginning of period	(36.5)	43.0
Government funding received to fund the acquisition of property, plant and equipment and intangible assets (including the cost of land)	(48.3)	(332.4)
Government funding used to fund capital expenditures	95.1	252.9
Balance, end of period	10.3	(36.5)

Parliamentary appropriations

The Corporation receives its funding from the Government of Canada based on the Government's fiscal year which begins April 1 and ends March 31. Thus, parliamentary appropriations for operating expenses and capital expenditures are based on the Government's fiscal year.

Parliamentary appropriation for operating expenses:

For the twelve month period ending

(in millions of Canadian dollars)	March 31, 2022	March 31, 2021
Original parliamentary appropriation	326.4	149.4
Supplementary parliamentary appropriation	95.0	259.9
Revised annual parliamentary appropriation	421.4	409.3

Revised annual parliamentary appropriation	443.4	437.1
Appropriation recognized for the three months ended June 30	48.3	84.8
Appropriation available for reminder of the year	395.1	352.3

9. Derivative Financial Instruments

The Corporation uses commodity swaps where it exchanges cash payments based on variations in the price of a commodity (i.e., heating oil) compared to the agreed benchmark.

At the end of the period, the fair values of the derivative financial instruments are as follows:

	June 36), 2021	December	31, 2020
	Notional quantity	Notional quantity Fair value CAD		Fair value CAD
Commodity swaps	(000's of U.S. gallons) (millions)		(000's of U.S. gallons)	(millions)
Assets	6,552	2.8	3,528	0.2
Liabilities	588	-	7,056	3.5

As at June 30, 2021, the commodity swaps in CAD have a fixed price per U.S. gallon between 1.730 and 2.651 CAD (December 31, 2020: between 1.735 and 2.651 CAD). The maturity dates range between 2021 and 2022 (December 31, 2020: 2021 and 2022). These financial instruments have a monthly settlement schedule.

10. Property, Plant and Equipment

Capital tax, income tax and other taxes payable	7.3	7.6
Deductions at sources	2.6	2.2
Total trade and other payables	147.8	122.6

13. Leases

The Corporation as a lessee:

The Corporation leases several assets including land, office spaces, stations and facilities and information technology equipment. The carrying amounts of right-of-use assets recognized and the movement during the period are as follow:

(in millions of Canadian dollars)	Land	Office spaces	Stations and facilities	Information technology equipment	Total
Cost:					
January 1, 2021	0.5	14.7	23.5	1.7	40.4

Net carrying amount	0.4	10.3	20.7	0.4	31.8

Amount recognized in the Statement of Comprehensive Income:

	Quarters ended June 30			onth periods ded June 30
(in millions of Canadian dollars)	2021	2020	2021	2020
Short-term leases	0.2	0.6	0.6	1.3
Low-value assets	0.1	0.1	0.1	0.1

Total cash outflow is \$1.2 million for the quarter and \$2.5 million for the six-month period (June 30, 2020: \$2.4 million for the quarter and \$3.3 million for the six-month period).

The Corporation has not entered into any sale and leaseback transactions in the current or prior period and has no income from subleasing right-of-use assets. The Corporation has not entered in any variable leases that do not depend on an index or rate.

The carrying amounts of lease liabilities and the movements of the period are as follow:

(in millions of Canadian dollars)	June 30, 2021	December 31, 2020
Balance, beginning of period	35.1	33.1
Additions	-	4.8
Accretion of interest	0.4	0.9

Balance, end of period	33.7	35.1
Current	2.7	3.0
Non-current	31.0	32.1
Total lease liabilities	33.7	35.1

14. Provisions

The provisions balance includes the following:

(in millions of Canadian dollars)	January 1, 2021	Additional provisions recognized	Provisions utilized	Unused amounts reversed	June 30, 2021
Environmental costs	1.4	0.3	(0.4)	-	1.3
Litigation and equipment repairs (Note 1)	9.0	2.9	(1.2)	(1.4)	9.3
Total provisions	10.4	3.2	(1.6)	(1.4)	10.6

Note 1: Litigation and equipment repairs

The Corporation is subject to claims and legal proceedings brought against it in the normal course of business. The timing of settlement of these claims depends to a large extent on the pace of negotiation with the various counterparts and legal authorities. The Corporation cannot reliably estimate when these claims will be resolved.

Also, the Corporation incurs equipment repair costs as a result of crossing accidents and other incidents causing damages to the rolling stock. These equipment repair claims are mostly settled between 3 and 18 months from the date of initiation.

Such matters are subject to several uncertainties. Management believes that adequate provisions for litigation and equipment repairs have been made in the affected accounts. The ultimate resolution of those matters is not expected to have a significant adverse effect on the Corporation's financial position.

15. Deferred Revenues

Deferred revenues are comprised of the following:

(in millions of Canadian dollars)	June 30, 2021	December 31, 2020
Advance ticket sales	7.3	3.9
VIA Préférence loyalty program	11.4	11.5
Non-monetary transactions	1.5	1.6
Gift cards	1.7	1.7
Other	0.8	0.9
Total deferred revenues	22.7	19.6

Advance ticket sales, which represent contract liabilities, relate to payments received in advance of performance under the contract. Contract liabilities are recognized as revenue as the Corporation performs the contract.

16. Employee Benefit Assets and Liabilities

The Corporation provides a number of pension plans with defined benefits (funded) and defined contribution components. The Corporation also provides unfunded other post-employment benefits, including post-retirement medical and life insurance benefits, and long-term employee benefits such as an unfunded self-insured workers' compensation benefits, long-term employee disability benefits and continuation of benefit coverage for employees on long-term disability.

As disclosed in Note 22 Employee benefit assets and liabilities of the Corporation's 2020 audited annual report, the Corporation reviews its actuarial assumptions at each reporting period to ensure that the net defined benefit asset (liability) recognized in the financial statements is updated for significant changes arising from non-recurring events. The impact on the net defined benefit asset (liability) arising from any such changes in assumptions is recognized in other comprehensive income as remeasurement for the period.

The significant actuarial assumptions used for the purposes of determining the defined benefit obligation and pension benefit costs were:

	June 30, 2021	December 31, 2020
ASSUMPTIONS — DISCOUNT RATES		
Assumptions for the calculation of the obligation		
Defined benefit component of the pension plans	3.10%	2.50%
Post-employment benefit plans	3.20%	2.60%
